

**2021 GT4 EUROPEAN SERIES
SPORTING NOTE #2**

AUDI TYRES

For safety reasons, from and including the Paul Ricard event onwards, there will be an updated specification for the rear tyres of the Audi R8 GT4 cars that will remain identified as 315/680-18 DHB.

The change solely concerns the structure of the tyres and has no impact on performance.

Consequently, competitors with Audi R8 GT4 cars entered on a full-season basis in the 2021 GT4 European Series will not be required or permitted to carry over any tyres from the Monza event.

Every competitor with an Audi R8 GT4 car entered for the full 2021 season will be issued with four new tyres per car at Paul Ricard, to be registered as S1 and to be used during free practice 1 and free practice 2.
